

GREEN CLEANING PROGRAM

August 2016

Introduction:

Regional School District 15 is committed to providing our students, faculty and staff, with a safe, clean and aesthetically pleasing environment conducive to learning. Regional School District 15, in compliance with the requirements of Public Act 09-81 regarding green cleaning products in schools, has developed the following information and program regarding the use of cleaning products used in our facilities. This program is ongoing and the intent is to reduce the exposure of building occupants to potentially hazardous products, equipment or procedures, which could adversely affect human health, the environment both indoors and outdoors.

The Act requires the following information be made part of the written program:

- The name and description of the cleaning product
- The location and how the cleaning product will be used
- The schedule of when the product will be used
- A method to prevent any staff, faculty, parent or guardian from bring into the facility a product intended to clean, deodorize, sanitize or disinfect. **No parent, guardian, teacher or staff member may bring into the school facility any consumer product which is intended to clean, deodorize, sanitize or disinfect.**
- A designated person for further contact and overall responsibility of managing the program. That person is Keith McLiverty. He can be reached at (203) 758-1743.

Description of Product Names of Preferred Cleaning Materials:

As required under Public Act 09-81, only products bearing the **Green Seal or Eco Logo** will be used. Products covered in this program include general purpose bathroom, and glass cleaners, floor strippers and finishes, hand cleaners and soaps.

Disinfectants, disinfectant cleaners, sanitizers or antimicrobial products regulated by the Federal Insecticide, fungicide and Rodenticide Act (FIFRA) are not covered by this law.

Audit Process:

Regional School District 15 will annually review the uses of all cleaning products and cleaning equipment used in our facilities as part of the Green Cleaning Program.

Annually all custodial staff will be audited on their uses of cleaning products to ensure compliance with this program. Should the audit identify deficiencies the appropriate staff will be retrained on the proper uses of said cleaning products or equipment.

Annually an outside health and safety consultant will review all cleaning products to evaluate them on their safety for use within our facilities.

Training:

Custodial staff will receive training in the safe use of all cleaning materials as required under the CT OSHA Hazard Communication regulation. Staff will receive appropriate training before any new product is introduced into the program.

Annually the following statement will be sent out to all parents, guardians, teachers and staff and posted on the District's web site:

No parent, guardian, teacher or staff member may bring into the school facility any consumer product which is intended to clean, deodorize, sanitize or disinfect.
